

## FINEST LOCATION

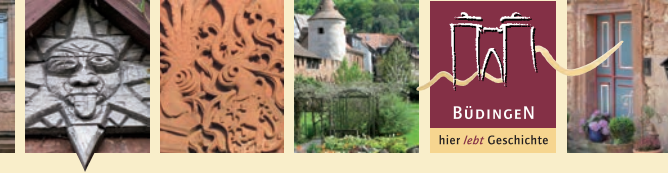

Nestled in the midst of extensive deciduous forests, Büdingen's hinterland offers a lot of opportunities for hikers and cyclists. There are mysterious burial mounds, castle ruins and the Valley of the Seven Streams with a large game reserve to discover. The well preserved Ronneburg Castle, the World of the Celts (Keltenwelt) in Glauberg, one of the most important Celtic sites in Europe, and the Upper Germanic-Rhaetian Limes, a UNESCO World Heritage Site, are close by.

# » *A* LITTLE PIECE OF MIDDLE AGES ...

## *R*EMARKABLE AND WELL WORTH A VISIT

Those who think of stones as more than just historical remnants and of half-timbered frames as more than just wooden beams are sure to fall under the spell of Büdingen's charms.

We would like to invite you to get to know more about this perfect example of a historic German town. Let us take you on a journey through time, beginning with the medieval castle, through the centuries-old alley ways to the town walls, ending at the neatly planned "Foretown" (Vorstadt) of 1725.

## *G*UIDED TOURS – AN EVENT

History becomes fun when joining one of our entertainment tours. With knowledge and with the historically dressed Night Watchmen, Lady's Maids or Herbalists are telling about earlier times. Special tours for children during which they become treasure hunters are also offered.

## *W*ELL PRESERVED

Büdingen has many museums to offer. In the Castle Museum one will be reminded of the courtly past, at the Heuson Museum the history of the middle-class is shown. Besides that the "Museum of the 1950s" captures the spirit of this exciting decade marked by post-war economic recovery and Rock'n'Roll.

There are also special collections to admire like at the Sandrose Museum. The Model Builders Museum presents prize-winning models of all kinds of vehicles and vessels.

Last but not least there is a small museum dedicated to the rich tradition of the butchers trade.
